Our Purpose
We are fuelling the growth of a truly sustainable economy by attracting and developing the leaders it needs. We believe that only by doing this will we have a chance of solving society’s most difficult problems.

Tom Rippin
On Purpose Founder and CEO
Our world needs an economy that works for all and operates within the means of our planet and without the injustices of today.

This requires a fundamental shift, led by people who transform the organisations in which they work, from an economy of profit to an economy of purpose: an economy that serves the wellbeing of all, now and for all time.

We are the home for these leaders: a community that develops, challenges and sustains itself and others, to help bring about such an economy.

Our Associate Programme develops people who will help transform the economy by changing the organisations in which they work.

The year-long leadership programme offers two paid purpose-driven work placements, weekly training and regular 1:1 coaching and mentoring.

Associates join a thriving community that continues to develop, challenge and support them as they work towards making the transformation we need a reality.

We are the home for these leaders: a community that develops, challenges and sustains itself and others, to help bring about such an economy.

07
Programme structure

The Associate Programme is a full-time, yearlong leadership programme. During this time you will:

- Join a cohort of 16-20 like-minded professionals;
- complete two six month placements in purpose-driven organisations, working with them for 4.5 days per week;
- take part in our intensive learning and development programme with your cohort every Friday afternoon;
- benefit from mentoring sessions every fortnight and coaching sessions every quarter;
- join the On Purpose community and benefit from our international network.

The Programme is based in London. For your year as an Associate, you’ll be paid a £25.6k salary. You also get a normal UK holiday allowance. When you complete the Programme, you’ll remain part of our diverse, connected and collaborative community. Six months after the Programme, alumni earn on average £45k.

Please note that on average our Associates have between five and seven years of work experience. To apply, you’ll need at least three years of full-time, paid work experience. You also need to be eligible to work in the UK for the duration of the Programme, as we are not able to sponsor visas and you must be able to communicate fluently in English.
Our placements

Placement organisations

The organisations we work with are social enterprises, social divisions of profit-seeking companies and commercially-minded charities.

Associates work in two purpose-oriented organisations for six months, doing strategically important work and reporting to senior management within those organisations. All our placements:

- combine commercial ways of working with creating social or environmental impact;
- have an appropriate level of challenge for a professional with on average seven years of work experience;
- focus the Associate on delivering work of real importance to the organisation.

Placement allocation

On Purpose allocates placements through a two-stage matching process that takes into account the preferences of our Associates and all our placement organisations.

The first stage is an exchange of information, with Associates receiving details of all placements, and vice versa. You submit your preferences for which organisations you like to speak to at matching day.

Following matching day we consider your preferred placements, and placements’ preferred Associates; allocating matches to maximise everyone’s preferences and achieve one set of matches that works across the whole group.
Placement Experience
The experience on placement has been very helpful, for instance by increasing my knowledge and understanding of startups, employment and agriculture – areas I previously had no experience in and little knowledge of.

Patrick Ellen
Fellow
October 2020
[Our Associate] was outstanding. The impact she was able to have in just six months was deeply impressive...

Prof. John Moxham
Director of Clinical Strategy, King’s Health Partners

Placement example 1: Systemiq
Supporting the development of a stakeholder engagement strategy to help drive forward a just energy transition:

- Running expert consultations with diverse industry stakeholders;
- Conducting research into specific energy challenges and helping to write reports;
- Managing stakeholders like the Energy Transitions Commission

Placement example 2: Samaritans
Developing products to support people’s mental health and wellbeing for the Samaritans, a UK charity who support people dealing with suicide:

- Working in two week sprints to develop new products/services;
- Pitching ideas to the senior leadership team;
- Refining and reiterating one product and project managing it to market.
The Associates we’ve worked with have been incredibly driven, really professional, very capable and open-minded... incredible people to work with.

Jameela Raymond
The B Team

Placement example 3: Big Society Capital

Helping set up a new fund and analysing impact investment deals at Big Society Capital:

- supported launch of social investment programme aimed at getting large corporations to invest at social innovation;
- analysis of the social and/or environmental impact of potential investments.
When I started at On Purpose, I had expected to learn a lot about leadership, systems change and social impact to help me develop the knowledge and skills I would need to build a career in the sector...What I did not expect was to completely reevaluate what I thought I was capable of. The programme has shone a light on blindspots and uncovered hidden strengths...paths and possibilities have opened up, which, before, I couldn’t even see.

Jawad Anjum
Fellow
October 2019
Learning and Development

Learning and development is a key part of the Associate Programme, and is delivered, in the main, through cohort training sessions each Friday afternoon.

Our learning and development sessions are delivered by leaders in the social sector and beyond, equipping you with a wide range of knowledge and skills, and enabling you to:

- understand the impact sector and commit to its potential to achieve systemic change
- gain comprehensive professional skills alongside social sector knowledge and experience
- investigate a range of approaches to financing, scaling and measuring impact
- exercise leadership potential and develop a sense of of purpose, momentum and direction

Example Training Sessions

- Organisational culture and development
- Social investment
- Problem solving
- Systems change: an introduction to mapping and mindsets
- Partnering and collaboration: a route to scale
- Life design
- Legal structures for purpose-led organisations
- Human-centred design & behavioural change
- Leadership in uncertainty
- Unconscious bias
- Good governance
- MBTI and working style
Mentoring & Coaching

Having access to mentoring and coaching was brilliant. I had many conversations with my mentors that helped me with obstacles I was facing in my work on placements, as well as thinking about my life after On Purpose.

Sinead Kirrane-Davis
Fellow
April 2020

Mentoring

You are matched with two mentors across the year, one for each placement, and you meet with them every fortnight. Your mentor supports and challenges you, gives you guidance and acts as a sounding board and thought partner (e.g., by reviewing a board presentation or helping you navigate organisational politics).

Coaching

You are matched with an executive coach for the year, and meet them once every quarter. Our coaches are experienced professionals who coach at senior and executive levels in organisations. Often, our coaches have had careers in business themselves.

Coaching offers an opportunity to step back and reflect on what you’re learning from the Programme and where your future career might take you. Our coaches are independent of On Purpose and their objective is to support your leadership development; they’ll challenge you to find your own solutions based on your own strengths and values.
After the Programme
92% of our Fellows continue working in purpose-driven organisations.

After your year on the Associate Programme, you become a Fellow. Our Fellows remain a central part of our community and continue to enjoy its benefits.

We share developmental opportunities with each other, have socials together and involve Fellows in the selection and training of new Associates.

Our slack channel ensures you never miss out on events and opportunities of interest to you.

We’ll also support you with your job search after the Programme. Job openings are shared amongst the community and Associates frequently find jobs with present or past placement organisations. While we can’t guarantee you a job, we’ll always help you with your search where we can.
This year was totally life changing and incredible for me, thanks to all the core team for that. I would never have the job I have now without it, or the confidence, the lifelong friends.

Louise Chegwidden
April 2021 Fellow

A year on the Associate Programme provides ample preparation for a purpose-oriented career: our Associates have a significantly higher sense of purpose than they do before the Programme and feel more able to clearly articulate their long term professional goals.

93% of Associates feel more confident leading change and 80% of Fellows report their work has a positive impact on people & planet.

Almost 1,000 Fellows are leading change in all parts of the system: from running a social enterprise that has supported almost 400 young refugees into employment, to winning a campaign which enabled free parking for disabled people at NHS hospitals, impacting the lives of hundreds of thousands blue badge holders.
Case Studies
My year as an Associate really gave me the chance to reflect on who I am as a person, a leader and how I want to live my life.

Olivia Beecham  
Fellow  
October 2021

On Purpose

My first placement was at a startup beer company called Pinter and I was tasked with supporting the organisation’s social impact vision, and their aspirations to become a B-Corp.

My second placement was with Big Society Capital where I worked with various teams. This included project managing a new e-learning platform to help diversify investment committees and developing tools to support systems change thinking in the social lending space.

Olivia before

I had a career in international development, primarily working for the UK Government. I was part of the Department for International Development and later the Foreign, Commonwealth and Development Office where I worked on various different policy and programme areas.

I knew I wasn’t in the right place and felt stuck, but couldn’t figure out what to do next. I realised that I didn’t have to stay in international development, or in the civil service. I then came across On Purpose and everything just clicked.

Olivia after

I work for a not-for-profit called Heart of the City where I collaborate with small UK-based businesses and support them on their responsible business journey. I work with them on anything from community partnerships to social justice or sustainability. I get to meet hundreds of businesses at different stages of their impact journey and see the difference that we’re collectively making.
My cohort was amazing. You’re going on this journey with people who have all given up their jobs and who are all going through a very similar experience.

Caleb Wheeler-Robinson
Fellow
October 2019

On Purpose

My first placement was at a tech for good organisation called Lightful, which supports non-profits to develop the digital skills and confidence needed to tell compelling stories, build trust, and raise more money. Here I worked on a project to support the company’s organisational culture. Another initiative was preparing the organisation for completing the B Corp certification.

My second placement was at Big Society Capital, a social impact-led investor. I worked with the government’s Department for Levelling Up, Housing & Communities to co-develop a fund with to provide capital for properties to house the homeless.

Caleb after

I now work for a social enterprise called Finance Earth. Finance Earth is an environmental impact investment advisor and fund manager working across the conservation, natural and built asset sectors to create innovative, investable projects.

Caleb before

I was a management consultant at one of the Big Four. I joined the organisation through a graduate scheme and worked across a number of projects, from technology delivery to strategy and supply chain.

However, after working as a consultant in the private sector for a few years, I got to the stage where I wanted to do something that had positive social or environmental impact at its heart, rather than working on projects that were only occasionally impactful.
You can design your career - and your life - as you choose. There isn’t just one path you have to follow to have a ‘successful’ career.

Rabia Abrar
Fellow
October 2017

On Purpose
My first placement was with Systemiq, an environmental consultancy. Here I worked on a project with the Energy Transitions Commission and on another initiative with the Ellen MacArthur Foundation to do with the circular economy for food and cities.

For my second placement, I worked at the Widening Participation Department at King’s College London. I created a communications strategy for (and with) the team and provided training and guidance on various topics like social media and media outreach, to reach more people in different ways.

Rabia before
Prior to joining On Purpose, I was working as a management trainee and marketing specialist at a large Canadian telecom company.

After a few years, I decided to leave the job and pursue a purpose-led career. I moved to Rotterdam and started a master’s degree in Sustainable Urban Management and Development and upon completion, I moved to London to work within the social impact space.

Rabia after
Most recently, I’ve worked as the Operations Lead at the Wellbeing Economy Alliance, a nonprofit which facilitates collaboration between changemakers from across the globe, who are working to transform the economic system.
Your Application
Who we look for

Eligibility

Our Associates have, on average, five to seven years of work experience. To apply you:

- must have the equivalent of three years of full-time, paid work experience (please note, we do not consider paid/unpaid internships or voluntary experience as part of this). We’ll happily consider you whether you have four or fifteen years of experience: above all, we look for people with an inspiring track record of achievements and drive to develop themselves personally, professionally or academically.

- need the right to work in the UK prior to applying for the Programme. On Purpose is not able to sponsor visas for the Associate Programme. For more information visit the gov.uk website.

- must be able to communicate fluently in English

Throughout the assessment process, you’ll be asked to demonstrate:

- **Motivation and persistence**: the ability to turn ideas into reality and seize opportunities. To challenge yourself to set goals and to know when to compromise or to involve others;

- **Interpersonal skills**: convincing, bringing in and inspiring others, whilst also dealing with conflict effectively and sensitively;

- **Attitudes and mindsets**: retain high expectations, an open mind and an eagerness for new experiences; being pragmatic, self-sufficient and comfortable with changing situations. Ability to articulate your commitment to work in the social and environmental impact space;

- **Problem solving**: structuring and breaking down complex problems into solvable elements, whilst not losing sight of the big picture; being comfortable with quantitative analysis and mental arithmetic.
1. Online applications

Submit an application online. This includes answering questions about your suitability for the programme and submitting a copy of your CV.

During the application period for each cohort we hold introduction webinars where you get a chance to meet some of our community and ask questions about the Programme, alongside other events including networking drinks.

2. Learn more about the programme

If you are selected for interview, you’ll be offered the opportunity to:

- join a conference call detailing what to expect during interviews and how to prepare for them;

- practice a case study interview based on an example of a project that you might work on in a placement and consider different ways to approach challenges in that project.

3. Interviews

You attend an online interview with two parts: one social enterprise-based case interview, which assesses your problem-solving skills; and two personal experience interviews.

4. Offers

After the interviews, we aim to make offers as quickly as we can, but we need to ensure that we have matched the number of Associates with the number of placement organisations we are partnering with for each cohort.

It usually takes four to eight weeks to finalise the number of placements and of Associates.

5. Placement allocation

Our matching process weights equally the preferences of placements & Associates:

- First round: Associates submit a one-minute video about themselves which will be shared with all placement organisations. Associates review placement overviews and indicate their preferences.

- Second round: Associates have 20 minute interviews with eight placement hosts.

- Final round: completed by On Purpose

6. First placement begins

Associates join the Programme with a 3-day induction with their cohort.

Introductions are made to mentors and coaches, before each Associate starts their first placement.
